1. 0.5 if the payment institution only provides the payment service listed in Article 1 para. 2 no. 6;
2. 1 if the payment institution provides one of the payment services listed in Article 1 para. 2 nos. 1 to 5.

(3) The payment institution shall submit a proposal to the FMA regarding the method to be selected at the same time as submitting the application for the granting of a licence. The payment institution may also submit an application to the FMA while business operations are ongoing, for the next business year for the specification of another method. The FMA may also determine a different method on its own initiative. After consulting the payment institution, it shall determine by means of an administrative decision, in the case of a licence being granted in the form of an administrative decision granting a licence pursuant to Article 10 para. 3, which method the payment institution shall apply. It shall take into account the complexity of the business model, in particular whether the operation of payment accounts is associated with this business model, whether payment transactions are covered by a credit line for the payment services user as defined in Article 1 para. 2 no. 4, the payment volume as well as how long the entity has already existed for. The method must adequately reflect the corporate governance, organisational structure and, in particular, the risk management pursuant to Article 20.

(4) Furthermore, the FMA may, based on an assessment of the risk management processes, the loss database and the internal control system of the payment institution,

1. prescribe that the payment institution must hold own funds that are up to 20% higher than the amount which would be calculated when applying the method chosen in accordance with para. 1; or
2. permit the payment institution that its own funds correspond to an amount that is up to 20 % lower than the amount that would be calculated when applying the method chosen pursuant to para. 1.

Safeguarding of customer deposits

Article 18. (1) Payment institutions shall protect all funds that they received from payment service users or through another payment service provider for the execution of payment transactions by means of one of two following options:

1. Option A
 - a) The funds may not at any time be commingled with funds of any other natural or legal person other than the payment service users on whose behalf the funds are held;

- b) The funds must, where they are still held by the payment institution at the end of the business day following the day on which the funds were received and,
 - aa) if the payment service provider of the payer is concerned, the funds have not yet been transferred to another payment service provider, or
 - bb) if the payment service provider of the payee is concerned, the funds have not yet been transferred to the payee,
 must be transferred into a separate trust account held at a credit institution, or invested separate from the assets of the payment institution in secure liquid assets with a low risk pursuant to para. 4, and
- c) the funds shall be held in a way that they remain identifiable, so that they may be allocated at any time to the individual payment service user, in accordance with the proportion of funds that the respective user holds.

In the event of enforcement against their payment service provider, payment service users may file an objection (Article 37 of the Enforcement Code (EO; Exekutionsordnung)) if the enforcement relates to the funds protected in accordance with lit. c). In accordance with the same conditions, in the event of bankruptcy proceedings being initiated against the assets of their payment service provider, the payment service user shall have a right to separation (Article 44 of the Insolvency Code (IO; Insolvenzordnung), published in Imperial Law Gazette 337/1914)).

2. Option B

The funds shall be covered by an insurance policy or another comparable type of guarantee from an insurance undertaking or credit institution, which does not belong to the same group as the payment institution itself, in an amount that is equivalent to that which would have had to have been held separately in the absence of the insurance policy or another comparable guarantee, and which shall be paid out in the event that the payment institution is unable to meet its financial obligations.

(2) If a payment institution is required to safeguard funds pursuant to para. 1 and a portion of these funds is to be used for future payment transactions while the remaining amount is to be used for non-payment services, then the obligations pursuant to para. 1 shall continue to apply for the proportion of the funds to be used for future payment transactions. Where the proportion for future payment transactions is variable or is not known in advance, a payment institution may apply a representative proportion that is typically used for payment services, provided that this representative proportion can, in the opinion of the FMA, be estimated on the basis of historical data with an adequate degree of certainty.

(3) The payment institution shall demonstrate and prove to the FMA upon request while business operations are ongoing that it has taken adequate measures to satisfy the requirements defined in paras. 1 and 2. If no proof is provided or if the measures are inadequate, the FMA shall request the payment institution to provide the necessary proof or take precautions, which are suitable and necessary for correcting the prevailing shortcomings. The FMA shall set an appropriate deadline for this purpose. If proof or precautions are not provided or taken, or not within the deadline, the FMA may take measures in accordance with Article 94 paras. 1 and 8.

(4) Secure low-risk assets pursuant to para. 1 no. 1 lit b sublit bb are assets that fall under one of the categories pursuant to Article 336 (1) Table 1 of Regulation (EU) No 575/2013, for which the own funds requirement against specific risk is not higher than 1.6 %, with other qualifying items pursuant to Article 336 (4) of Regulation (EU) No 575/2013 being excluded. Furthermore, safe low-risk assets shall also be units in an undertaking for collective investment in transferable securities (UCITS) as defined in Directive 2009/65/EC, which only invests in assets as defined in the previous sentence. In exceptional circumstances, the FMA may determine by means of a Regulation which of the assets defined in the first and second sentence do not constitute safe liquid low-risk assets for the purposes of para. 1 no. 1 lit b sublit bb. To do so, the FMA must assess the safety, maturity, value or other risk factors of the assets defined in the first and second sentence and consider these factors in its regulation.

Checking of ownership interests

Article 19. (1) Any person who has decided to acquire or increase, whether directly or indirectly, a qualifying holding as defined in Article 4 (1) (36) of Regulation (EU) No 575/2013 in a payment institution, with the consequence that the equity holding or voting rights would reach or exceed

20 %, 30 % or 50 % or the payment institution would become its subsidiary, shall notify this in advance in writing to the FMA. The same shall also apply for any person who has decided to dispose of its qualifying holding or reduce its qualifying holding to an extent that its equity holding or voting rights would fall below 20 %, 30 % or 50 %, or so that the payment institution would no longer be its subsidiary.

(2) With regard to the procedure and the criteria for the assessment of checking of holdings, Articles 20a and 20b BWG shall apply.

(3) The proposed acquirer of a qualifying holding shall be required to submit details to the FMA about the scope of the proposed holding as well as information pursuant to Article 20b para. 3 BWG.

(4) Where the risk exists that the influence that is exercised by the proposed acquirer named in para. 3 is anticipated have a detrimental effect on the prudent and sound management of the payment institution, then the FMA shall raise an objection to avert such a risk or take other appropriate measures to put an end to this situation. Such measures shall consist in particular of:

1. supervisory measures pursuant to Article 94 para 1,
2. sanctions against the directors pursuant to Article 94 para. 1 no. 3, or
3. the submission of a motion to a competent first-instance commercial court at the payment institution's registered office to order the suspension of voting rights associated with those shares or other holdings held by the shareholders or other partners in question,
 - a) for the duration of such a threat existing, with the end of such a threat being determined by the court; or
 - b) until such shares or other holdings have been purchased by third parties following the non-prohibition having occurred (Article 20a para. 2 BWG);
 this court is to rule in the process of alternative dispute resolution.

The measures shall also apply to those persons, who do not comply with the obligation to make an ex ante notification to the FMA pursuant to para. 1.

(5) If a holding was acquired despite being prohibited by the FMA (Article 20a para. 2 BWG), then the voting rights of the shares or other units held by the relevant shareholders or other members shall be suspended, until the FMA determines that the reason for the prohibition having been issued no longer exists.

(6) If the court suspends voting rights pursuant to para. 4 no. 3, the court shall at the same time appoint a trustee who must satisfy the requirements defined in Article 10 para. 1 no. 4 BWG, and shall assign the exercising of the voting rights to the trustee. In the case of para. 5, the FMA shall apply for the appointment of a trustee at the competent court pursuant to para. 4 no. 3 without delay, where it becomes aware of voting rights having been suspended. The trustee shall be entitled to be compensated for expenses incurred, as well as for remuneration of his/her activities; the amount of which is to be determined by the court. The payment institution as well as the shareholders and other members, whose voting rights are suspended, shall be jointly and severally liable. The obliged parties shall be entitled to appeal against decisions that determine the amount of remuneration for the trustee and the expenses to be reimbursed to them. No further appeal shall take place against the decision of the Oberlandesgericht (regional court of appeal).

Organisational requirements, confidentiality and due diligence obligations

Article 20. (1) Payment institutions shall be required to have sound internal governance and shall document this comprehensibly in writing. This shall include in particular:

1. an organisational structure with precisely defined, transparent and coherent areas of responsibility that avoid conflicts of interests and jurisdictions in business operations by means of appropriate structural and procedural delineations, as well as

In so doing, they shall, in particular, inform themselves of the risks associated to payment services business and payment services operations as well as the risks arising from the remuneration policy and remuneration practices and manage, monitor and limit this risk through adequate strategies and procedures while also ensuring the solid and prudent management of the payment institution. Furthermore the directors shall inform the chairperson of the supervisory body without delay about all FMA administrative decisions that have been issued on the basis of the provisions listed in Article 94.

(3) The directors shall be responsible for ensuring that the payment institution has a proper business organisation as defined in para. 1, which in particular includes:

2. full documentation of business activities, which allow the prudential supervision by the FMA for the scope of its competence;

6. an adequate risk management procedure with regard to the risk of money laundering and terrorist financing.

(4) The expediency of the procedures pursuant to paras. 1 and 3 as well as their application, shall be reviewed at least once a year by way of an internal audit pursuant to Article 42 paras. 1, 2, and 3, Article 42 nos. 1 and 3 and Article 42 paras. 5, 6 and 7 BWG, although Article 42 para. 3 BWG shall be applied subject to the proviso that the requirement of at least two directors shall only apply if the payment institution actually has at least two directors owing to its size and organisation. The areas inspected and the findings of the inspection shall be documented.

(5) Payment institutions as well as any persons employed by them shall be bound to secrecy for secrets, which they have exclusively been a party to as a result of payment services (Article 1 para. 2) that they execute on behalf of their payment service users, unless

1. this obligation to professional secrecy is in conflict with a statutory disclosure obligation;
2. the payment service user gives their written consent to the disclosure of the secret;
3. disclosure of the secret is required to clarify legal issues resulting from the relationship between the payment service provider and its payment service user.

(6) Article 36 BWG shall apply to payment institutions.

Outsourcing of tasks

Article 21. (1) The outsourcing of important operational tasks, including IT systems, shall not be allowed to materially impair the quality of the payment institution's internal control mechanisms as well as the payment institution's supervision by the FMA with regard to its compliance with the requirements set out in this Federal Act. An operational task shall be deemed to be important in this context, if it being conducted inadequately or it failing to be conducted would materially impair the continuing compliance of a payment institution with the requirements of its licence or its other obligations pursuant to this Federal Act, or if its financial ability to perform, or the soundness or continuity of its payment services are materially impaired. When concluding, implementing or terminating an agreement in relation to the outsourcing of important operational tasks, it shall be necessary to proceed with due required professionalism and diligence. 3. prevent or impede compliance with the requirements for the licence and the remaining provisions pursuant to Chapter 2 of this Federal Act; and
4. lead to the removal or modification of other requirements in accordance with which the payment institution's licence was granted.

(3) The payment institution shall notify the FMA in advance in writing of any intended outsourcing of operational tasks of payment services, irrespective of whether these tasks qualify as important tasks as defined in para. 1. At the FMA's request, the payment institution shall provide the FMA with all the information required to monitor whether the requirements of this Federal Act in relation to the outsourcing of tasks are being complied with.

(3) If the FMA has any doubt over the correctness of the information, it may take additional measures to check the information received, and may in particular demand further information concerning the agent's organisational structure. The FMA shall prohibit the provision of payment services by agents by means of an administrative decision, if the requirements pursuant to para. 1 nos. 1 to 5 have not been fulfilled.

(4) If the FMA has no doubts regarding the correctness of the details supplied, then it shall enter the name and the address of the agent in the register of payment institutions pursuant to Article 13 para. 2. (6) The payment institution shall notify the FMA about any changes regarding the making use of agents, including using additional agents, without delay.

(7) Performing activities as an agent does not constitute an employment relationship within the meaning of provisions contained in Federal Acts governing employment, social or tax law.

Liability for persons attributable to the payment institution

Article 23. (1) Payment institutions are fully liable without exception for the conduct of their employees, agents, branches or persons to which or whom their activities have been outsourced.

All payment institutions shall disclose their own funds, own funds requirements and compliance with own funds requirements. With regard to disclosure, Article 65 para. 1 BWG shall be applicable with the proviso that references to Article 63 para. 5 BWG shall be replaced by references to Article 25 para. 3 of this Federal Act.

(2) In the case that payment institutions also conduct other activities as defined in Article 7 para. 2 no. 2 or 3 to a significant extent, then special segment statements about the payment services pursuant to Article 1 para. 2 as well as ancillary activities as defined in Article 7 para. 2 no. 1 shall be disclosed in the notes to their annual financial statement and consolidated financial statement, which cover the compulsory information included in the notes. The segment statements shall give a true and fair view of the assets, financial and earnings situation of the "payment services and associated ancillary services" segment in the appropriate depth of detail and provide a reconciliation to the respective disclosures of the entire entity or group. The information for this segment shall be drawn up based on the capture, valuation and layout provisions in Article 43 and Articles 45 to 59a BWG or, where applicable, the international accounting standards pursuant to Article 245a UGB.

This audit covers the organisational structure as well as the administrative, accounting and control mechanisms (Article 20 para. 1) which the directors have put in place in view of the provisions set forth. The outcome of this audit opinion shall be presented in an annex to the audit report on the annual financial statement (prudential report for payment institutions). This audit report and annex shall be transmitted promptly to the directors and the supervisory bodies of the payment institution specified by the law or articles of association, to ensure that the deadline for submission to the FMA and Oesterreichische Nationalbank may be observed. The FMA may specify the mode of transmission, form and layout of the annex to the audit report by way of a Regulation. The FMA may, after consulting with the Oesterreichische Nationalbank, prescribe by means of a Regulation that an electronic submission must comply with specific layouts and minimum technical requirements. The FMA is empowered to prescribe by means of a Regulation

The provisions pursuant to Article 62a BWG in conjunction with Article 275 UGB regarding the responsibility of external auditors shall also apply to payment institutions.

(7) The auditors must be appointed prior to the start of the business year that is the subject of the audit and must be notified in writing to the FMA without delay; in the event that an external auditing company is appointed as the auditor, then the natural persons named for the audit engagement pursuant to Article 77 para. 9 of the Tax Advising and Related Professions Act (WTBG; Wirtschaftstreuhänderberufsgesetz) as published in Federal Law Gazette I No. 137/2017 must be indicated in this notification. Any changes in the persons named must be notified to the FMA without delay. The FMA may raise an objection as defined in Article 270 para. 3 UGB to the appointment of an external auditor or any natural person named pursuant to Article 77 para. 9 WTBG, if justified reasons exist with regard to the existence of a reason for exclusion or any other bias; in the case of appointments requiring a notification, the objection must be filed within one month. The court shall rule on any objection taking into account the reasons for exclusion; until the legally enforceable court decision exists, the external auditor or the natural person named pursuant to Article 77 para. 9 WTBG shall neither be allowed to undertake auditing activities nor may they be provided with any information by the payment institution that is to be treated as being confidential pursuant to Article 20 para. 5 of this Federal Act.

(8) The auditor shall certify to the FMA that reasons for exclusion do not exist, within two weeks of their appointment. At the FMA's request, the external auditor must also provide all additional certifications and evidence necessary for the purpose of assessment. If such a request is not fulfilled, the FMA may proceed in accordance with para. 7.

Reporting

Article 26. (1) Payment institutions shall submit reports immediately following the end of each calendar quarter to the FMA corresponding to the specific format prescribed in the regulation pursuant to para. 5. These reports shall in particular contain information about the balance sheet, off-balance sheet items, the income statement as well mandatory disclosures in the notes to the financial statements as well as any information that permit the evaluation and monitoring of Article 7 para. 6, and Articles 18 and 20.

(2) Payment institutions shall submit reports immediately following the end of each calendar month to the FMA with regard to their compliance with Articles 16 and 17. These reports shall contain both information about the monitoring of compliance with these regulatory standards as well as material information necessary about how this information was derived.

(3) Payment institutions shall submit reports immediately following the end of each calendar half-year to the FMA on company-related master data. Notwithstanding these requirements, payment institutions shall also report any changes to the master data without undue delay. The report

regarding employee headcount must only be reported at the end of each year, to be received by 31 January of the following year at the latest.

(4) The Oesterreichische Nationalbank shall provide expert opinions on the reports pursuant to para. 2 and the associated FMA Regulations issued in this regard.

(5) The FMA shall define the specific format of the reports pursuant to paras. 1 to 3 by means of a Regulation. The FMA, in doing so, shall take into account the need for meaningful reporting as a requirement for the ongoing supervision of payment institutions. The FMA may determine by means of a Regulation that individual items stated in para. 2 only need to be provided on a quarterly basis. In issuing this regulation, the FMA shall also take the national economic interest in maintaining a viable financial market and ensuring financial stability. The FMA may, insofar as it is not prevented from performing its duties in accordance to this or other Federal Acts, stipulate by means of a Regulation that the reports pursuant to paras. 1 to 3 shall be submitted exclusively to Oesterreichische Nationalbank. Regulations issued by the FMA in accordance with this paragraph shall require the consent of the Federal Minister of Finance.

(6) The reports pursuant to paras. 1 to 3 shall be submitted electronically in a standardised format. The submissions must meet certain minimum requirements to be announced by the FMA after consultation with the Oesterreichische Nationalbank.

1. objective reasons relating to the security of the payment instrument justify blocking;
2. suspicion exists that the payment instrument is being used in an unauthorised or fraudulent manner; or
3. in the case of a payment instrument with a credit line, there is a significantly increased risk that the payer may be unable to fulfil its liability to pay.

(2) Obligations to block a payment instrument or account in accordance with other Federal Acts or pursuant to orders imposed by the court, public prosecutor or administrative authorities shall remain unaffected by para. 1.

(3) The payment service provider shall, where possible, inform the payer of the blocking of the payment instrument and the reasons for its blocking in the agreed manner (Article 48), where

possible, before the payment instrument is blocked, and at the latest immediately thereafter. The notification of the blocking or the reasons for the blocking may be omitted, if it

1. would compromise objectively justified security reasons;
2. would compromise an arrangement under union law or national law; or
3. would breach an instruction by a court or an administrative authority.

(4) Once the reasons for blocking the payment instrument no longer apply, the payment service provider shall unblock the payment instrument or shall replace it with a new payment instrument.

(5) An account servicing payment service provider may deny an account information service provider or a payment initiation service provider access to a payment account for objectively justified and duly evidenced reasons relating to unauthorised or fraudulent access to the payment account by that account information service provider or that payment initiation service provider, including the unauthorised or fraudulent initiation of a payment transaction. In such cases the account servicing payment service provider shall inform the payer that access to the payment account is denied and the reasons therefor in the form agreed. That information shall, where possible, be given to the payer before access is denied and at the latest immediately after access to the payment account is denied, unless providing such information would compromise objectively justified security reasons or is prohibited by other relevant Union or national law. As soon as the reasons for denying access no longer exist, the account servicing payment service provider shall grant access to the payment account.

(6) In the case of access being denied pursuant to para. 5 the account servicing payment service provider shall report the incident relating to the account information service provider or the payment initiation service provider to the FMA without delay. The report shall contain the following information:

1. the relevant details of the incident, and
2. the reasons for taking action.

The FMA shall assess the case and shall take appropriate measures if necessary.

Obligations of the payment service user in relation to payment instruments and personalised security credentials

Article 63. (1) The authorised payment service user shall observe the conditions for the issuance and use of a payment instrument when using one. The conditions for the issuance and use of a payment instrument must be objective, non-discriminatory and proportionate.

(2) The payment service user shall notify the payment service provider or the body designated by the payment service provider without undue delay on becoming aware of loss, theft, misappropriation or any other unauthorised use of the payment instrument.

(3) Directly after being in receipt of a payment instrument the authorised payment service shall take all reasonable steps to protect its personalised security credentials against unauthorised access.

Obligations of the payment service provider in relation to payment instruments

Article 64. (1) The payment service provider issuing a payment instrument shall ensure, irrespective of the duty of care of the payment service user (Article 63) that:

1. the personalised security features of the payment instrument shall not be accessible to parties other than the payment service user entitled to use the payment instrument;
2. appropriate means shall be available at all times to enable the payment service user to make a notification pursuant to Article 63 para. 2 free of charge or to request its unblocking pursuant to Article 62 para. 4;
3. any use of the payment instrument shall be prevented once a notification pursuant to Article 63 para. 2 has been made; and
4. the payment service user has the possibility to make a notification pursuant to Article 63 para. 2 free of charge, and in any case the payment service user shall only be charged the costs directly associated with the replacement of the payment instrument.

(2) In the event that a payment instrument or any personalised security features of the payment instrument are sent to the payer, the payment service provider shall bear the risk of sending and for any misuse or any unauthorised use. The unsolicited or unarranged sending of any payment instrument shall not be permitted.

(3) The payment service provider shall, upon request, provide the payment service users with evidence by which the payment service user is able to prove, for a period of up to 18 months after notification that they fulfilled their notification obligation pursuant to Article 63 para. 2.

Notification and correction of unauthorised or defectively executed payment orders

Article 65. (1) To obtain rectification from the payment service provider, the payment service user shall notify the payment service provider without undue delay upon becoming aware of any unauthorised or incorrectly executed payment transactions, which have led to a claim arising, including such in accordance with Article 80 (obligation to notify any lack of conformity). If the payment service provider has communicated or made available the information pursuant to Chapter 3, the deadline for the payment service user to notify the payment service provider for the purpose of obtaining rectification shall end no later than 13 months after the date on which the debit or credit was executed. The limitation periods applying for unsettled claims for the payment service user following timely notification shall be determined by the general provisions. Other claims between payment service providers and payment service users remain unaffected.

(2) Where a payment initiation service is involved in the payment transaction, then the payment service user shall obtain the rectification pursuant to para. 1 from the account servicing payment service provider. Article 67 para. 2 and Article 80 para. 1 remain unaffected.

Proof of authentication and execution of payment transactions

Article 66. (1) If a payment service user contests having authorised an executed payment transaction or asserts a claim that the payment transaction was not executed in an orderly manner, their payment service provider shall have to prove that:

1. the payment transaction was authenticated,
2. it was accurately recorded and entered in the accounts, and
3. the service provided by the payment service provider was not affected by a technical error or another fault.

(2) If the payment transaction is initiated by a payment initiation service provider, then the payment initiation service provider shall be required to prove that payment transaction was authenticated within its scope of competence, was accurately recorded and was not affected by a technical error or another fault linked to the payment service of which it is in charge.

(3) Proof of use of a payment instrument in itself is not alone necessarily sufficient to prove the payer's authorisation of the payment transaction, of an intentional or grossly negligent violation of duty of care pursuant to Article 63 or fraudulent actions on the part of the payer. The payment service provider, including, where appropriate, the payment initiation service provider, shall provide supporting evidence to prove fraud or gross negligence on part of the payment service user.

Payment service provider's liability for unauthorised payment transactions

Article 67. (1) In the event of an unauthorised payment transaction the payer's payment service provider shall refund, irrespective of Article 65, the payer the amount of the unauthorised payment transaction without delay, in any event at latest by the end of the following business day, after it became aware of the payment transaction or the payer notified it. The payer's payment service provider shall restore the debited payment account to the state in which it would have been had the unauthorised payment transaction not taken place, with the credit value date in the payer's payment account to be no later than the date that amount had been debited.

(2) The payment service provider shall not be required to make a refund pursuant to para. 1, where reasonable grounds exist to support a suspicion of fraud. In this case the payment service provider shall notify the FMA in writing without delay about the suspicion of fraud.

(3) If the payment transaction is initiated by a payment initiation service provider, then the account servicing payment service provider shall refund the amount of the unauthorised payment transaction without delay. The refund shall take place in accordance with the rules set out in para. 1. If the payment initiation service provider is liable for the unauthorised payment transaction, then it shall compensate the account servicing payment service provider at the latter's request without delay for the losses incurred as a result of the refunding of the payer or amounts paid, including the amount of the unauthorised payment transaction. The payment initiation service provider shall provide proof whether the payment transaction corresponds to the standards pursuant to Article 66 para. 2.

(4) Claims by the payer of either a contractual or legal basis that extend beyond the rules pursuant to paras. 1 to 3, shall not be excluded as a result.

Payer's liability for unauthorised payment transactions

Article 68. (1) Where unauthorised payment transactions are not based on the usage of a lost or stolen payment instrument or the misappropriation of a payment instrument, then the payer's payment service provider may demand that the payer repays damages arising up to the amount of EUR 50, if the payer caused the damage by slight negligence of a duty of care pursuant to Article 63.

(2) The payer shall in any case not be liable in accordance with para. 1, if

1. the loss, theft or misappropriation of a payment instrument was not detectable to the payer prior to a payment, or
2. the loss was caused by acts or lack of action of an employee, agent or branch of a payment service provider or of an entity to which its activities were outsourced.

(3) By way of derogation from paras. 1 and 2 the payer shall be obliged to repay the total damage in full to its payment service provider that occurred as a result of an unauthorised payment transaction, if the payer caused the damage by acting fraudulently or as a result of intent or gross negligence of the duty of care pursuant to Article 63.

(4) Where the payer has neither acted fraudulently nor intentionally failed to fulfil its duty of care pursuant to Article 63, in any other apportionment of blame, particularly the nature of the personalised security credentials and the specific circumstances under which the payment instrument was lost, stolen or misappropriated shall be taken into account.

(5) By way of derogation from paras. 1 and 3 the payer shall not be obliged to pay damages to its payment service provider, if the payer's payment service provider does not demand strong customer authentication, unless the payer was acting fraudulently. If the payee or the payee's payment service provider does not accept strong customer authentication, then it shall refund the damages to the payer's payment service provider.

(6) By way of derogation from paras. 1 and 3 the payer shall not be obliged to repay damages that arise from the use of a payment instrument used following the notification pursuant to Article 63 para. 2 (loss, theft, misuse), unless the payer acted fraudulently. Except in the case of such fraudulent intent, the payer shall also not be obliged to repay damages, if the payment service provider has not fulfilled its obligations pursuant to Article 64 para. 1 no. 2 or 3.

Payment transactions for which the amount is not known in advance

Article 69. (1) If a payment transaction is initiated in relation to a card-based payment transaction by or via the payee and the precise amount is not known at the point in time at which the payer grants the approval for executing the payment transaction, the payer's payment service provider shall only be allowed to block funds on the payer's payment account, when the payer has approved the precise amount of the funds to be blocked.

(2) The payer's payment service provider shall release the funds that are blocked in the payer's payment account pursuant to para. 1 without delay following receipt of the information about the precise amount of the payment transaction, at latest however without delay following receipt of the payment order.

Refunds for a payment transaction initiated by the payee

Article 70. (1) A payer shall be entitled to a refund of the full amount from its payment service provider in the event of an authorised payment transaction initiated by or through a payee which has already been executed, if:

1. the exact amount was not specified when the authorisation was made, and
2. the amount of the payment transaction exceeds the amount the payer could reasonably have expected taking into account their previous spending pattern, the conditions in the framework contract and relevant circumstances of the case in hand.

At the payment service provider's request, the payer shall be required to provide factual elements relating to such conditions. The amount that is to be refunded must be credited to the payer's payment account at latest on the date of the debiting of the account. In the case of direct debits pursuant to Article 1 of Regulation (EU) No 260/2012 there also exists, in addition to a claim in

accordance with this paragraph, a claim for the unconditional refund within the timeframes pursuant to Article 71, provided that this has not been waived pursuant to para. 3.

(2) If the reference exchange rate agreed pursuant to Article 41 para. 1 no. 4 or pursuant to Article 48 para. 1 no. 3 lit. b forms the basis of the transaction, then the payer may not assert any claims against its payment service provider with regard to para. 1 no. 2 in relation to reasons relating to the currency exchange.

(3) It may be arranged in a framework contract between the payer and the payment service that the payer shall have no claim to reimbursement, when

1. the payer directly granted approval to the payment service provider for executing the payment transaction, and
2. where applicable information has been communicated or made available to the payer by the payment service provider or the payee about the payment transaction to be conducted in an agreed form at least four weeks before the date upon which the payment becomes due.

(4) The relationship between the payer and payee shall not be affected by the payer's right to a refund.

(5) The payer's right to revocation until the point in time of revocation specified under Article 74 shall remain unaffected.

Procedure for refunds for a payment transaction initiated by the payee

Article 71. (1) The payer shall assert its right to a refund pursuant to Article 70 against its payment service provider within eight weeks from the date on which the funds in question were debited from the payment account. Within ten business days of receiving a request for a refund, the payment service provider shall either refund the full amount of the payment transaction or provide the payer with a justification for refusing the refund.

In the event that the refund is refused, the payment service provider shall inform the payer of the possibility in accordance with Article 13 General Administrative Procedures Act (AVG; Allgemeines Verwaltungsverfahrensgesetz), to file a complaint with the FMA, as well as the possibility to assert its rights before an ordinary court of law, including information about the effective jurisdiction, and before the dispute settlement body, indicating its registered office and address.

Section 3

Execution of payment transactions

Receipt of payment orders

Article 72. (1) The point in time, at which a payment order transmitted directly by the payer or indirectly by or through a payee is received by the payer's payment service provider, shall be deemed to be the point in time of receipt. The payer's account shall not be allowed to be debited prior to the point in time of receipt.

(2) If the point in time of receipt does not fall on a business day for the payer's payment service provider, the payment order shall be handled as if it had been received on the following business day.

(3) The payment service provider may, by way of derogation from para. 1, establish that payment orders received after a cut-off point towards the end of the business day may be handled as if they had been received on the following business day.

(4) If the payment service user initiating the payment order and its payment service provider have agreed that the execution of the payment order should be started on a specific day or at the end of a certain period or on the day on which the payer has placed funds at the payment service provider's disposal, then the agreed date shall be deemed to be the point in time of receipt for the purposes of Article 77. If the agreed date does not fall on a business day for the payment service provider, then para. 2 shall apply.

Refusal of payment orders

Article 73. (1) The payment service provider shall not be allowed to refuse the execution of an authorised payment order, irrespective of whether the payment order was initiated by a payer, or by a payment initiation service provider or by or through a payee, unless

1. not all the conditions set out in the framework contract pursuant to Article 48 are met; or
2. execution would breach an arrangement under Union or national law or an order of a court or administrative authority; or
3. reasonable suspicion exists that the execution of the payment would constitute a punishable act.

(2) If a payment service provider refuses the execution of the payment order, then the payment service provider shall inform the payment service user of this circumstance as quickly as possible, in any case within the deadlines pursuant to Article 77 in the form agreed upon pursuant to Article 48 para. 1 no. 4, stating the reasons and the possibilities of improvement. The citing of reasons for the refusal shall be waived, if doing so would constitute a violation of an arrangement under Union or national law or breach a court or administrative order.

(3) For the purposes of Articles 77 and 82, a payment order for which execution has been refused shall be deemed not to have been received.

Irrevocability of payment orders

Article 74. (1) A payment service user may no longer revoke a payment order,

1. when the payment order has been received by the payer's payment service provider;
2. in the case of Article 72 para. 4 (agreement of a future execution date) after the end of the business day preceding the agreed date.

(2) When the payment transaction was initiated by or through the payee, the payer may no longer revoke the payment order once the payer has communicated its approval for executing the payment transaction to the payee. When the payment transaction was initiated by a payment initiation service, then revocation of the payment order is not permissible, once the payer has granted its approval for initiation. Notwithstanding the above, the payer may, however, in the case of a direct debit revoke the payment order, at latest by the end of the business day preceding the agreed debit date for the payment order.

(3) After the point in time of irrevocability pursuant to para. 1 and 2 has been reached, a payment order may only be revoked, if this has been agreed upon between the payment service user and the payment service provider in question (Article 48 para. 1 no. 2 lit. c). In the case of para. 2 the consent of the payee continues to be necessary .

Transfer for the full amount

Article 75. (1) The payer's payment service provider, the payee's payment service provider and any intermediaries of the payment service provider shall transfer the full amount of the payment order and may not deduct charges from the amount transferred.

(2) The payee and its payment service provider may however agree that the payment service provider shall be allowed to deduct its charges from the amount transferred, before the payment service provider credits the payee. In this case, the full amount of the payment transaction and charges must be itemised in the information given to the payee.

(3) If the payment transaction is initiated by the payer, the payer's payment service provider shall ensure that the payee receives the full amount of the payment transaction less the charges pursuant to para. 2. If the payment transaction is initiated by or through the payee, the payee's payment service provider shall ensure that the payee receives the full amount of the payment transaction.

Section 4

Execution time and value date

Scope

Article 76. (1) This section shall apply for

1. payment transactions in Euro,

2. national payment transactions in the currency of the non-euro area Member State,
3. payment transactions, where there is only one currency conversion between the Euro and the currency of a non-euro area Member State, provided that the currency conversion required is carried out in the non-euro area Member State and - in the case of cross-border payment transactions - the cross-border transfer is denominated in Euro.

(2) This section shall not apply to payment transactions that are not listed in para. 1, provided something else has not been agreed between the payment service user and the payment service provider. The party may not contractually waive Article 77 para. 2 and Article 78. If however the payment service user and the payment service provider however agree a longer timeframe for payment transactions within the Union than those pursuant to Article 77 paras. 1, 3 or 4, then this longer timeframe shall not exceed four business days from the point in time of the receipt of the payment order (Article 72).

Execution period and availability

Article 77. (1) The payer's payment service provider shall ensure that the funds involved in the payment transaction are credited to the account of the payee's payment service provider at latest at the end of the following business day after the day of the point in time of receipt (Article 72). For payment transactions initiated in paper form, this time limit shall be extended by an additional business day.

(2) The payee's payment service provider shall make the funds involved in the payment transaction available on the payee's payment account of the payee without delay once this amount has been credited to the payee's payment service provider or its account and value date it pursuant to Article 78, when from the side of the payee's payment service provider

1. there is no currency conversion; or
2. a currency conversion takes place between the euro and a currency of a Member State or between the currencies of two Member States.

This obligation shall also apply for payments within a payment service provider.

Measures in accordance with para. 7 in conjunction with Article 70 para. 4 no. 1 BWG, however, may only be published, if this is necessary based on the nature and severity of the violation for informing the general public, and is reasonable with regard to any disadvantages suffered by the affected parties. These publication measures may also be taken on a cumulative basis.

(9) The FMA may notify the public by way of publication on the Internet, or in a newspaper with nationwide circulation that a named natural or legal person (person) is not authorised to perform certain payment services (Article 1 para. 2), provided that this person has given cause for such action and informing the general public that is proportionate with regard to any potential disadvantages for the affected parties. If, in the course of this review, it is found that the publication was unlawful, the FMA shall correct the publication or, at the request of the person subject to this publication, either revoke it or remove it from its website. If a complaint against an administrative decision, which has been announced pursuant to para 8, is granted suspensory effect in proceedings conducted before public-law courts, the FMA shall make this known in the same manner. The publication shall be corrected or at the request of the concerned party either revoked or removed from the FMA's Internet presence, if the administrative decision has been repealed.

(1) If an auditor, in auditing the annual financial statement of a payment institution specified in Article 4 no. 4 lit. a or performing any other activity prescribed by law at this institution, determines any circumstances that justify a reporting obligation pursuant to Article 273 paras. 2 and 3 UGB, they shall also submit the report pursuant to Article 273 para. 3 UGB at latest at the same time to the FMA and the Oesterreichische Nationalbank.

(2) The auditor shall, even where no reporting obligation exists pursuant to Article 273 paras. 2 and 3 UGB, notify the FMA and the Oesterreichische Nationalbank and the directors as well as the supervisory body responsible in accordance with the law or the articles of association in writing without delay with explanations, if they discover during the performance of their duties as auditor facts that

In cases where an external auditing company is appointed as the auditor, the reporting requirement also applies to the natural persons named pursuant to Article 77 para. 9 WTBG.

(3) The auditor shall also be obliged to report any circumstances of which they become aware of during the performance of one of the aforementioned activities in an undertaking that is associated (Article 189a no. 8 UGB) to the payment institution identified in Article 4 no. 4 lit. a for which they are performing this activity.

(4) In the course of performing their duties, the auditor is also obliged to inform the chairperson of the supervisory body even without an audit engagement from the supervisory body if, due to the nature and circumstances of the violations, reporting to the directors would not achieve the purpose of correcting the shortcomings and such shortcomings are severe.

(5) If the auditor files a report pursuant to paras. 1 to 4 in good faith, this shall not be considered a violation of a disclosure restriction governed by a contract or by law, regulations or administrative provisions and shall not attach any liability to the auditor.

The report shall also indicate whether the payment institution is able to pay a certain fraction of the liabilities it incurred before receivership legally took effect. Based on the report, the court may order that only a fraction of the prior claims be subject to cancellation; the court may also allow the receiver to settle prior claims in their entirety to be determined according to their type or amount.

(5) Both the payment institution and the FMA may take recourse against the rejection of a request for the imposing of receivership and against the termination of receivership; however, only the payment institution may take recourse against decisions which define the amount of remuneration and the cash expenses to be reimbursed to the receiver. Article 115. (1) Payment institutions that were granted a licence pursuant to ZaDiG, as published in Federal Law Gazette I No. 66/2009 until 31 May 2018 for their activities, may continue to

perform such activities, without needing to apply for a licence pursuant to Article 9. Payment institutions that intend to continue to provide the payment services covered by their licence beyond 31 May 2018, shall be required to submit all factually relevant information to the FMA until 13 July 2018, so that the FMA may assess whether these payment institutions fulfil the requirements set forth in Articles 5 and 6 as well as Chapter 2 of this Federal Act. Prior to 13 July 2018 the FMA shall desist from imposing administrative penalties for breaches against the listed provisions.

(2) For payment institutions that have proven to the FMA pursuant to para. 1, that the requirements of Articles 9 and 10 are complied with, the licence shall be deemed to have been granted. The FMA shall enter these payment institutions into the register of payment institutions pursuant to Article 13 para. 2, and shall inform the EBA as well as the payment institution concerned about this.

(3) Where the submitted information pursuant to para. 1 does not permit any positive assessment from the FMA's perspective, or if the payment institution has omitted to submit the information pursuant to para. 1, then the FMA shall revoke the licence (Article 11).

(4) Regardless of para. 1 payment institutions that held licences to provide the payment services listed in Article 1 para. 2 no. 6 ZaDiG, published in Federal Law Gazette I No. 66/2009, shall keep their licence to provide the payment services listed in Article 1 para. 2 no. 3 of this Federal Act, if they have provided the FMA with proof by 13 January 2020 that they comply with the requirements of Article 16 para. 1 no. 3 and Article 17. Prior to 13 July 2020 the FMA shall desist from imposing administrative penalties.

(5) Legal entities that already provided payment initiation services (Article 1 para. 2 no. 7) or account information services (Article 1 para. 2 no. 8) prior to 13 January 2016 in Austria, shall be allowed to continue to perform such activities until Articles 59 to 61 and Article 87 enter into force, without needing to apply for a licence pursuant to Article 9 or a registration pursuant to Article 15. Other payment services shall not be allowed to be performed. Legal entities that also wish to provide the named payment services following the entry into force of Articles 59 to 61 and Article 87, must apply for a licence pursuant to Article 9 or a registration or a registration pursuant to Article 15 until the date when Articles 59 to 61 and Article 87 enter into force. If this application is submitted promptly and completely, then the applicant shall be allowed to continue to be active until the FMA's decision regarding the application becomes legally effective.

(6) Legal entities that have provided payment initiation services (Article 1 para. 2 no. 7) or account information services (Article 1 para. 2 no. 8) since 13 January 2016 in Austria and that also wish to provide these activities after 1 June 2018, shall be required to apply for a licence pursuant to Article 9 or a registration pursuant to Article 15 until 1 June 2018. If this application is submitted promptly and completely, then the applicant shall be allowed to continue to be active until the FMA's decision regarding the application becomes legally effective.

(7) Where the submitted information pursuant to para. 5 or para. 6 does not permit any positive assessment from the FMA's perspective, or if the legal entity has omitted to submit the information pursuant to para. 5 or para. 6, then the licence pursuant to Article 9 or the registration pursuant to Article 15 shall be deemed to no longer be granted.

(8) Account servicing payment service providers shall not be allowed to refuse payment initiation service providers and account information service provider access to the payment accounts that they service until the entry into force of Articles 59 to 61 and Article 87, because they do not satisfy the requirements of Articles 59 to 61 and Article 87. (9) Applications pursuant to Article 9 (licence application) and Article 15 (registration application for account information services) shall be permissible from the date of publication of this Federal Act.
