Article 2. (1) Credit institutions pursuant to Article 1 para. 1 BWG with the legal form of a registered cooperative society (German: eingetragene Genossenschaft), which pursuant to Article 6 (4) subparagraph 1 and Article 6 (6) of Regulation (EU) No 1024/2013 are not subject to direct supervision by the European Central Bank, shall be granted prior approval for the 2026 calendar year based on Articles 77 and 78 of Regulation (EU) No 575/2013 in conjunction with Article 32 of Delegated Regulation (EU) No. 241/2014 for the repayment of share capital on the basis of terminations of shares made on or after 1 January 2024 that qualify as Common Equity Tier 1 items within the meaning of point (a) of Article 26 (1) or Article 484 (3) of Regulation (EU) No 575/2013, up to 1% of the eligible Common Equity Tier 1 capital prior to the repayment, provided that all of the following conditions are fulfilled:

1. the Common Equity Tier 1 capital ratio pursuant to point (a) of Article 92 (1) of Regulation (EU) No 575/2013 is at least 7 % following the redemption;
2. the credit institution shall at all times, having conducted one of the acts listed in Article 77 of Regulation (EU) No 575/2013, hold sufficient own funds to satisfy the following requirements:
 - a. the own funds requirements set out in points (c) and (d) Article 92 (1) of Regulation (EU) No 575/2013, as well as
 - b. any additional own funds requirement that exceeds that set out in lit. a, that is communicated by the competent authority on a case-by-case basis as necessary based on Article 104a of Directive 2013/36/EU as the outcome of the Supervisory Review Process pursuant to Article 69 BWG, as well as

For the purposes of pre-authorisation pursuant to this provision, other legal reasons for termination, for which the redemption of capital holdings is a consequence, shall be considered comparable to a call of cooperative shares.

(2) The amount determined in para. 1 for pre-authorisation, which shall not be allowed to exceed 1 % of the eligible Common Equity Tier 1 capital prior to the redemption, shall be calculated as follows: The total of new issuances of cooperative shares paid in during the 2024 financial year that fulfil the requirements pursuant to Articles 28 and 29 of Regulation (EU) No 575/2013 shall be deducted from the total of the redemption amounts for all cooperative shares called in that year. The result shall be divided by the amount of Common Equity Tier 1 capital held at the end of the 2024 financial year added to the total of the redemption amounts for all calls made in this financial year. In the event that the calculation conducted for the 2024 financial year reveals that the total of the redemption amounts does not exceed the total of the cooperative shares issued and paid in in the same financial year, then the conditions pursuant to para. 1 nos. 1 and 2 shall not apply.

(3) Permission to consider such cooperative shares as Common Equity Tier 1 instruments shall be granted for new issuances of cooperative shares paid in pursuant to para. 2, provided that such cooperative shares satisfy the conditions set out in Articles 28 and 29 of Regulation (EU) No 575/2013.

1. the total calculated pursuant to para. 2 of the redemption amount for all cooperative shares call in during the 2024 financial year does not exceed the total of new issuances of cooperative shares paid in in the same financial year that fulfil the requirements pursuant to Articles 28 and 29 of Regulation (EU) No 575/2013, or
2. the credit institutions exceed the solvency requirements pursuant to para. 1 nos. 1 and 2 by 1% in each case.

Article 6. Article 8. Where an institution exercises a significant influence over one or more institutions or financial institutions, but without holding a participation or other capital ties in those institutions, then taking into consideration Article 5 (1), (4) and (5) of Delegated Regulation (EU) 2022/676 full consolidation shall be performed in those cases in which the institution that exercises the significant influence is exposed to the majority of the risks in conjunction with the relevant activities of those institutions or financial institutions, or enjoys the majority of the associated benefits, due to its organisational and financial relations to the relevant institutions or financial institutions.
