**COMMISSION IMPLEMENTING REGULATION (EU) .../...**

**laying down implementing technical standards for the application of Regulation (EU) 2022/2554 of the European Parliament and of the Council with regard to standard templates for the register of information**

**ANNEX I**  
**Instructions for completing the register of information**

**PART 1**  
**GENERAL INSTRUCTIONS**

Financial entities while maintaining and updating the register of information at entity, sub-consolidated and consolidated level, shall fill-in the templates of the register of information with data using the formats set out in the instructions in Part 2.

Part 2 lays down instructions to be followed by financial entities to complete each column of each template. When completing the information of certain columns, financial entities shall refer to Annexes II, III and IV or other external sources. In such cases, the reference to the relevant Annexes or external sources is indicated in the instructions.

**List of the templates**

<b>Template Code</b>	<b>Template Name</b>	<b>Short Description</b>
<b>B_01.01</b>	<b>Entity maintaining the register of information</b>	This template identifies the entity maintaining and updating the register of information at entity, sub-consolidated and consolidated level, respectively.
<b>B_01.02</b>	<b>List of entities within the scope of consolidation</b>	This template identifies all the entities belonging to the group. Where the financial entity responsible for maintaining and updating the register of information does not belong to a group, only that financial entity shall be reported in this template.
<b>B_01.03</b>	<b>List of branches</b>	This template identifies the branches of the financial entities referred to in template B_01.02.
<b>B_02.01</b>	<b>Contractual arrangements – general information</b>	This template lists all contractual arrangements with direct ICT third-party service providers.  For each contractual arrangement with a direct ICT third-party service provider, the financial entity maintaining the register of information shall assign a unique ‘contractual arrangement reference number’ to identify unambiguously the contractual arrangement itself.
<b>B_02.02</b>	<b>Contractual arrangements – specific information</b>	This template provides details in relation to each contractual arrangement listed in template B_02.01 with regard to:  (a) the ICT services included in the scope of the contractual arrangement; (b) the functions of the financial entities supported by those ICT services;

Template Code	Template Name	Short Description
		(c) other important information in relation to the specific ICT services provided (e.g. notice period, law governing the arrangement, etc.).
<b>B_02.03</b>	<b>List of intra-group contractual arrangements</b>	This template identifies the links between intra-group contractual arrangements and contractual arrangements with ICT third-party service providers which are not part of the group using the contractual reference numbers when part of the ICT service supply chain.
<b>B_03.01</b>	<b>Entities signing the contractual arrangements for receiving ICT service(s) or on behalf of the entities making use of the ICT service(s)</b>	<p>This template provides information on the entity signing the contractual arrangements with the direct ICT third-party service provider for the entity making use of the ICT services.</p> <p>Where the register of information is maintained and updated at entity level, the entity signing the contractual arrangement and the entity making use of the ICT services is the financial entity maintaining and updating the register of information.</p> <p>In the context of sub-consolidation and consolidation, the financial entity making use of the ICT services provided is not necessarily the entity signing the contractual arrangement with the ICT third-party service providers.</p>
<b>B_03.02</b>	<b>ICT third-party service providers signing the contractual arrangements for providing ICT service(s)</b>	This template identifies all the ICT third-party service providers referred to in template B_05.01 signing the contractual arrangements referred to in template B_02.01 for providing the ICT services.
<b>B_03.03</b>	<b>Entities signing the contractual arrangements for providing ICT service(s) to other entities within the scope of consolidation</b>	This template identifies all the entities referred to in template B_01.02 signing the contractual arrangements referred to in template B_02.01 for providing the ICT services to other entities in the consolidation.

Template Code	Template Name	Short Description
<b>B_04.01</b>	<b>Entities making use of the ICT services</b>	<p>This template identifies all entities making uses of the ICT services provided by ICT third-party service providers and registered in the register of information.</p> <p>The entities making use of the ICT services shall be either the financial entities in scope, or the ICT intra-group service providers.</p> <p>Where the register of information is maintained and updated at entity level, the entity signing the contractual arrangement and the entity making use of the ICT services are the financial entity maintaining the register.</p>
<b>B_05.01</b>	<b>ICT third-party service providers</b>	<p>This template lists and provides general information to identify:</p> <ul style="list-style-type: none"> <li>(a) the direct ICT third-party service providers;</li> <li>(b) the ICT intra-group service providers;</li> <li>(c) all subcontractors included in template B_05.02 on ICT service supply chain;</li> <li>(d) the ultimate parent undertaking of the ICT third-party service providers listed in points (a), (b) and (c).</li> </ul>
<b>B_05.02</b>	<b>ICT service supply chain</b>	<p>This template identifies and links the ICT third-party service providers that are part of the same ICT service supply chain.</p> <p>Financial entities shall identify and rank the ICT third-party service providers for each ICT service included in each contractual arrangement.</p> <p><i>Example:</i> a financial entity has a contractual arrangement with an ICT third-party service provider ('ICT third-party service provider X') to receive 2 specific ICT services ('ICT service A' and 'ICT service B') and the service provider makes use of a subcontractor ('ICT third-party service provider Y') to provide one of those services ('ICT service B').</p> <ul style="list-style-type: none"> <li>▪ In relation to ICT service A, the ICT service supply chain is composed of one ICT third-party service provider, ICT third-party service provider X,</li> </ul>

#### **Instructions to complete template B\_01.02 —List of financial entities within the scope of the register of information**

Where the register of information is maintained and updated at sub-consolidated and consolidated level, this template identifies all the financial entities belonging to the sub-group and group. Where the financial entity responsible for maintaining and updating the register of information does not belong to a group, only that financial entity shall be reported in this template and the entry of this template shall be the same as template B\_01.01.

Where an entity is acting on behalf of a financial entity for all the activities of the financial entity (including the ICT services), the direct ICT third-party service providers to that entity should be recorded in the relevant templates of the register of information of the financial entity. In such case, that entity is only registered as an entity maintaining the register and shall not be reported in this template.

### Instructions to complete template B\_02.01 — Contractual arrangements – General information

Financial entities shall designate a ‘contractual arrangement reference number’ for each contractual arrangement in the register of information. Where the external ICT third-party service provider is making use of subcontractors, financial entities shall not include in the register of information a ‘contractual arrangement reference number’ for arrangements between the external ICT third-party service providers and their subcontractors. In case of an ICT intra-group service provider, financial entities shall include the ‘contractual arrangement reference number’ between this ICT intra-group service provider and its ICT third-party service providers in this template and shall populate the template B\_02.03 (List of intra-group contractual arrangements) accordingly.

The ‘contractual arrangement reference number’ shall refer to the following type of contractual arrangements:

- (a) any kind of standalone arrangements;
- (b) any kind of ‘overarching or framework arrangements’, including master and framework arrangements;
- (c) any kind of ‘subsequent or associated arrangements’, including implementing arrangements, subservice arrangements, order forms.

The contract reference number does not refer to any kind of service level agreement subordinated to any of the types of contractual arrangements referred to in points (a), (b) and (c) above.

### Instructions to complete template B\_05.02 — ICT service supply chains

This template identifies and links the ICT third-party service providers that are part of the same ICT service supply chain together.

The ICT service supply chain shall include, where applicable:

- (a) all direct ICT third-party service providers;
- (b) all ICT intragroup service providers;
- (c) for the ICT services supporting a critical or important function or material part thereof, all subcontractors that effectively underpin the provision of those ICT services (i.e. all the subcontractors providing ICT services whose disruption would impair the security or the continuity of the service provision);
- (d) where an ICT intragroup service provider uses subcontractors to provide their ICT services to the financial entity, at least the first extra-group subcontractor even if the ICT services provided do not support a critical or important function or material parts thereof.

All ICT third-party service providers belonging to the same ICT service supply chain share:

- (a) the same 'contractual arrangement reference number' as referred to in template B\_02.01;
- (b) the same 'type of ICT services' as referred to in Annex III;

Each ICT third-party service provider that belongs to the same ICT service supply chain is assigned with a ‘rank’ (template B\_05.02.0050) to identify its position within the ICT service supply chain. Where multiple ICT third-party service providers have the same position within the same ICT service supply chain, those providers shall be assigned with the same ‘rank’. In accordance with Article 2, the direct ICT third-party service providers are therefore at rank 1. If the rank is higher than 1, the ICT third-party service providers are subcontractors.

To link the ICT third-party service providers that belong to the same ICT service supply chain together, for each ICT subcontractor (i.e. where the ‘rank’ is higher than 1) financial entities shall identify the ICT third-party service provider that receives its subcontracted services. The identification of the ICT third-party service provider that receives the subcontracted services shall be carried out by using the columns B\_05.02.0060 and B\_05.02.0070.

For each ICT service supply chain (i.e., a combination of a "contractual arrangement reference number" and a "type of ICT services"), where there are multiple ICT third-party service providers receiving the subcontracted services, all of those service providers shall be reported in separate rows in the template. The same logic applies at each rank of the ICT service supply chain.
